

Object of the Preposition

Lyrics by GrammarFlip

It's the object of the preposition;
It comes right behind – yo, that's its mission!
It tells us what or where to go;
After "in" or "on," that's what it will show!

In the **park** and by the **sea**;
The "park," the "sea" – it's clear to me!
The word that follows, that's the trick,
The object of a preposition's slick!

It's the object of the preposition;
It comes right behind – yo, that's its mission!
It tells us what or where to go;
After "in" or "on," that's what it will show!

On the **table**, under the **bed**;
The "table," the "bed" – that's what I said!
Each place or thing that's following near,
The object of the preposition's clear!

It's the object of the preposition;
It comes right behind – yo, that's its mission!
It tells us what or where to go;
After "in" or "on," that's what it will show!

By the **door** or across the **street**;
The "door," the "street" – it's pretty neat!
Objects make the meaning right,
With prepositions, they're out of sight!
